Stellar Cyber — What We Do

Stellar Cyber illuminates the darkest corners of cybersecurity, empowering security teams to see threats coming, know how to respond, and act decisively. Our AI-powered, open security operations platform is built for lean enterprise and MSSP teams alike—delivering full-cycle SecOps from detection through response. With intuitive design, intelligent automation, and out-of-the-box integrations, Stellar Cyber simplifies security while amplifying its impact.

Stellar Cyber — How We Do It

We guide customers on a journey toward a human-augmented, autonomous SOC. Our platform brings together **Multi-Layer AI™**, including supervised and unsupervised machine learning, deep learning, GraphML for correlation, LLM-powered copilots, and Agentic AI to automate decisions at speed and scale. It's pre-configured to work on day one, leveraging your existing tools and data to maximize value with no added complexity. Analysts receive only high-fidelity, correlated Cases—so they can focus on what matters most.

Why Customers Need Stellar Cyber's Unified & Open Security Operations Platform

With over **14,000 customers in 50+ countries**, and trusted by nearly **1/3 of the top 250 MSSPs**, Stellar Cyber is redefining security operations around the world. Our **open integration model** connects seamlessly with existing IT, security, and productivity tools—delivering unmatched ROI and eliminating silos.

The platform provides:

- Real-time threat detection and correlation across the entire security stack
- A single interface to manage AI-driven SIEM, NDR / OT, UEBA, ITDR, and more
- AI-driven investigations and autonomous Agentic AI-driven response
- Native multi-tier, multi-tenancy for MSSPs and large enterprises
- Intelligent dashboards and dynamic reporting
- A single, straightforward license—no surprises

With Stellar Cyber, teams can break free from alert fatigue, tool sprawl, and manual investigations. Backed by our relentless team of security experts, we ensure smooth deployment, effective training, and measurable outcomes.
